

# St. ANTHONY'S Grammar High School

## Teacher's Training Program

At SAGHS, we help teachers realize their potential, students succeed in the classroom, and schools grow through our comprehensive teacher training courses. These courses include teacher development workshops and our dedicated teacher training portal. Saghs equips teachers with skills for the 21st century. It integrates critical thinking, collaboration, and creativity IN everyday lessons, truly preparing students for the future.

## TENTH RESULTS

SAGHS has once again set a new benchmark in academics excellence by achieving an extraordinary 100% results in the academic year 2024-25. The school not only recorded a 100% pass rate but also saw a double the expected number of distinctions and high scores in Dammaiguda making a significant milestone in history. The Management felicitated faculty and students along with their parents and expressed immense pride in the students and faculty.

## QR Code Generation for tree

A QR code for tree identification is a convenient way to access information about a specific tree by scanning the code with a smartphone or QR code reader. This system typically links the code to a database or webpage containing details about the tree species, its characteristics, location, and potentially even historical or ecological information. Activity of generating QR code is done by children in school and the activity was huge success.
